Belgrade,

CIRCULAR NOTICE

Subject: Passenger information on prohibited articles

Dear Sir/Madam,

According to the provisions of the National Civil Aviation Security Program (Conclusion of Government of the Republic of Serbia, top secret 05 No. 00-162/2011) and Regulation on detailed measures for implementation of common basic standards in Aviation security (“Official Gazette of the Republic of Serbia”, No. 78/11) air carriers have to ensure that before check-in is completed all passengers are informed of the prohibited articles which are not permitted to carry into security restricted areas and on board an aircraft.

Analyzing security related occurrences in the past, it has been noted that there are non-compliance with provisions related to prohibited articles. In accordance with local regulations, it is necessary to provide adequate information to all passengers and persons other than passengers of the prohibited articles which are not permitted to carry into security restricted areas and on board an aircraft.

Best regards,

ACTING DIRECTOR

Milan Zivanovic
