***Introduction**

EU Regulation (EC) 216/2008 of 20 February 2008 addresses amongst others the responsibilities of National Aviation Authorities of the Member States of the European Union regarding the implementation and training of National Aviation Authorities Inspectors responsible for Initial Airworthiness.

In order to fulfill these requirements the European Commission has issued Regulation (EU) No 628/2013 of 28 June 2013 on working methods of the European Aviation Safety Agency for conducting standardisation inspections and for monitoring the application of the rules of Regulation (EC) No 216/2008 of the European Parliament.

The European Commission has also issued implemented Commission Regulation (EU) No 748/2012 of 3 August 2012 laying down implementing rules for the airworthiness and environmental certification of aircraft and related products, parts and appliances, as well as for the certification of design and production organizations.

This training course should provide National Aviation Authorities' Inspectors to become knowledgeable and capable to fulfill the obligations of standardization per (EU) No 628/2013 and the certification of production organizations per (EU) 748/2012.

***Content**

In this course there should be addressed chapters and articles of the following EU Regulations:
EU Regulation (EC) 216/2008

Commission Regulation (EU) No 628/2013

Commission Regulation (EU) No 748/2012, the relevant Subparts of Annex I (Part-21)

*** Objectives**

By the end of the training course, the NAA Inspector shall not only be able to:

- identify, and
- justify

the findings with regard to Initial Airworthiness, according to the European regulatory framework currently in place, but should also be fully knowable how to manage production application under Subpart F, respectively Subpart G and how to manage and perform the continued oversight of these organizations.“

5. In item 15 Price Structure Form in the table under number 4 the title is changed to read „NAA inspectors training course - initial airworthiness“.

6. Attached to this amendment is the consolidated version of the Public Procurement of Low-Value Services - Specialist Civil Aviation Training, JNMV 18/2017.
